SOURCE: 2006 CBEDS data, California Dept. of Education. County and state averages represent continuation high schools only. Because teachers can hold more than one type of credential, percentages rarely add up to 100 percent.

Our teachers bring an average of six years of teaching experience to their classes. All of our teachers have a full credential. Statewide about 94 percent of continuation high school teachers hold this credential.

The factors above may affect students' performance in school. Most of the two students at our school designated as English learners speak Portuguese at home.

COLLEGE PREPARATION

Two factors indicate how effectively we prepare students for college: whether students are taking the courses required for college admission, and where students ultimately enroll in the state's public college system.

KEY FACTOR	CONTINUATION HIGH		
	OUR SCHOOL	COUNTY AVG	STATE AVG
Students meeting UC or CSU course requirements	N/A	0%	3%

Information in this report changes throughout the year. This data was taken from the California Department of Education in August 2007. A complete annual accountability report is available from our school or district office, and on our district Web site: <http://www.amadorcoe.org>

MEASURES OF ACADEMIC PROGRESS

ACADEMIC PERFORMANCE INDEX (API): This is California's way of rating schools. Using student test scores, the API places schools on a scale from 200 to 1000. Our school's API was 530, compared with 537 for the average continuation high school. The state expects schools to attain an API of 800 eventually. Many continuation high schools account for their results using the [Alternative School Accountability Model \(ASAM\)](#). If you see "N/A" in the tables below, ours may be an ASAM school.

ADEQUATE YEARLY PROGRESS (AYP): This is a federal measure that requires schools to meet test score goals schoolwide and for all subgroups* of students. We met four out of six criteria for yearly progress. Because we fell short in two areas, we did not make AYP. Note that the number of criteria may vary from school to school.

CALIFORNIA API ACADEMIC PERFORMANCE INDEX		FEDERAL AYP ADEQUATE YEARLY PROGRESS	
Met schoolwide growth target	N/A	Met AYP	No
Met growth target for prior school year	N/A	Met schoolwide test participation rate	No
API score	530	Met schoolwide test score goals	No
Growth attained from prior year	+15	Met subgroup* test participation rate	N/A
Met subgroup* growth targets	N/A	Met subgroup* test score goals	N/A
Underperforming school†	No	Met API for AYP	Yes
		Met graduation rate	Yes
		Program Improvement school	No

SOURCE: API growth score, 2007 test cycle. API and AYP current as of August 2007.
 *—Numerically significant groups, such as English learners and ethnic groups, with separate API and AYP goals.
 N/A—Data unavailable or unreported; statistically insignificant number of valid test scores; testing data under review; or school uses alternative accountability measures.
 †—Includes schools in these programs: Immediate Intervention/Underperforming Schools and High Priority Schools Grant.
